# 10 Steps To Earning Awesome Grades (While Studying Less)

## Synopsis

Becoming a more effective learner and boosting your productivity will help you earn better grades - but itâ™ll also cut down on your study time. This is a short, meaty book that will guide you through ten steps to achieving those goals: Pay better attention in class Take more effective notes Get more out of your textbooks Plan like a general Build a better study environment Fight entropy and stay organized Defeat Procrastination Study smarter Write better papers Make group projects suck less Whether youâ™re in college or high school, this book will probably help you. But not if youâ™re a raccoon. I want to be very clear about that; if youâ™re a raccoon, please buy a different book. This one will do absolutely nothing for you. How did you even learn to read, anyway?

## Customer Reviews

Author provides useful tool recommendations for studying and getting more work done. Touches on many points regarding solid learning habits. Worth the read. Author is rather funny with references to geeky references and, my favorite a nod to a comical video made by the wiggles haha

Great book and a fan of his youtube channel. I've been struggling on grades all my life even through college. This guide helps and great advice breakdown to keep you motivated.

Wow, I really enjoyed reading this book. It's a funny and engaging book! Can't wait to implement the principles it addressed!

This book offered insightful advice on time management and self discipline while studying. Also organization and "study hacks." I would recommend this book to any student in any level of their college career.

Extremely interesting and eye opening. Looking forward to practicing some of these tools. I would definitely recommend to anyone who is currently in school.

Lots of good tips and recommendations. Enjoyable writing style. Would definitely recommend to others. Extra words added to fulfill review minimum word count.

This book was extremely helpful and it's very informative. Every step goes into great detail from using better study techniques to utilizing useful sources. I wish I would of read this sooner before I started college!! Thank you so much for this Frank!

Such a great resource for anybody that is learning, not just college students. Thomas Frank is a brilliant inspiration.
