Customer Reviews

yet another outstanding edition from MC! What a way to consistently raise the bar. 5 Stars! Nicely done sir. thanks for the hours of enjoyment, JD/Zee

This one started a little slower than normal, as a consequence of all the world building and developing a larger group of core characters. But don't worry, it picks up just fine. I'm constantly amazed that the characters can still be challenged and stay awesome given the power building they're undergoing. Managing that is good writing.

I love all this series. If you're into litrpg and all then this is for you. This book focused less on the numbers, but I found the story and action better than the last. I would love to see a little more crafting, but I'm happy with the story that things are happening now.

Has been found that even the stone raiders should fear... however being stone raiders they don't care! The time of myth and legends is nearing and the rush to prepare is on,

Well Done Michael, another great addition to the series looking forward to see how it continues. Well written with characters who have depth and a story which grabs you and holds you.

Ok i just finished this book. My opinion another awesome book for this great series. I could not put it down. The sad part i have to wait another month to read the next one.

This book was just better than the last, I can't wait to see what happens next, I enjoy the humor and the twist in events.

I really liked this book can't wait to see where the next book takes the story I will definitely read the next book
