A good book for those looking to study children studies

I recently attended Brooklyn College and as a Children's Studies minor I found this book invaluable to studying children's rights. The United Nations Convention Rights of the Child is summarized in the text. It is a document that consists of the rights of children regarding their rights to education, human rights, legal rights etc. There are also several law cases outlined regarding children. If you are a law student, sociology, psychology, humanities major, you need this book. If you are a teacher, college professor, social worker, parent or deal with children on any level, you need this book. I wish I had known of it earlier in my college career.
