Soon after beginning piano study, students can play attractive versions of favorite classics, as well as the best-known popular music of today. I was looking for something more along the lines of traditional Hymns, this is a bit too contemporary for me. Good book, just not my style :)

for me. Good book, just not my style :)

I bought this book after a moderately good experience with the Praise Hits 1A book. However, I found my experience with this book much less satisfactory. Both books are leveled to match where you are in the Alfred books, but this one had poor arrangements. Both books have an adult accompaniment, but while the 1A version sounded like the actual song you were supposed to be playing without the accompaniment, this one sounds like the accompaniment to the accompaniment.

Very good seller, came as describe

Good for beginner .

Great book!

Would highly recommend. I've been looking for beginner books as I begin to learn to play piano, and this was a nice way to get to play some pop music while learning the basic skills.

Great for beginners
