Nowhere's Child: The Inspiring Story Of How One Woman Survived Hitler's Breeding Camps And Found An Irish Home

Synopsis

Kari Rosvall's early life was shrouded in mystery until, at age 64, she received a letter through the post. In it was a photograph of herself as a young baby - the only one she had ever seen. This was the first step towards her discovery of the dark secret of her conception. Kari soon learned that she was a Lebensborn child, part of Hitler's 'Spring of Life' programme, which encouraged Nazi soldiers to have children with Scandinavian women in order to create an Aryan race. And so began a journey back to her roots: to Norway, where she was taken from her mother and sent to Germany in a crate to join the other Lebensborn children, and to post-war Germany and her eventual rescue by the Red Cross from an attic. *Nowhere's Child* is a remarkable story of reconciliation and of forging new beginnings from a dark past. Ultimately, for this woman who set up a new life in Ireland, it is the life-affirming account of what it really means to find a place called home.

Customer Reviews

Liked the book especially the print size made it easy to read. Good story and had been wondering how these people are doing today. But was she actually part of the lebensborn program or did her mother just have a child with a Nazi. They were really strict on who could have a child under that

program.

A look into a part of WW II German history that is often overlooked

I found the book to be a very good, easy read. I am interested in stories from the Nazi era and this revealed the other side of Hitler's master plan.

This is a hard book to read because of what its about and I liked the subject. It was very interesting to read.
