Grasping the baton from the hand of The Champion's Mind: How Great Athletes Think, Train, and Thrive, this book looks at how all great champions continue to persevere despite losses, injuries, and other personal and professional setbacks. Success in sports rarely follows a straight line or predictable path. The Champion's Comeback zeroes in on how champions learn to repeat their successes and pick themselves up after setbacks by consistently practicing positive habits and thought patterns. This book is for people of all ages and all levels of competition. If you have the heart and desire to get back in your game and compete like a champion, this book is for you. Jim Afremow from The Champion's Comeback Jim Afremow is one of the world's leading sports psychologists. We covered his first book The Champion's Mind. Check out the Notes on that. This one is kinda like part 2 in which we look at how the Champion responds to the inevitable (!) setbacks faced on the road to greatness using those setbacks as opportunities to bounce back and make a sweet comeback. It's packed with Big Ideas + great stories of individual and team comebacks. Plus a ton of awesome quotes. I'm excited to share some of my favorite Big Ideas: 1. Challenges vs. Threats - How do you see setbacks? 2. The 7 L's - Of the Champion's Comeback Code. 3. Your Contract - You outperforming it? 4. Practice - Until you can't get it wrong. 5. Want to Live Longer? - Smile. Let's do this!!! More goodness including Philosophers Notes on 300+ books in our OPTIMIZE membership program. This is an excellent book. As an athlete who has dealt with obstacles, injuries and set backs I have found sound advice to cope and come back as a better athlete and a better person. This books touches on many obstacles we face to make a come back and gives us a the tools and a skill set to bring ourselves to the highest level. Most sports psychology books give you tools to deal with competition, but the process to achieve the highest level is full of road blocks that unless the tackle them we won't achieve the best we are ought to be, this is the book that will help you get there.

Excellent read. Great stories. Lots of powerful quotes. But it goes well beyond "positive attitude" and deals with the realities of overcoming, rising above, grit, persistence, and work. Good read for youth as well as adults.

Action-packed, adrenalin-pumping authoritative account of well-known professional athletes making comebacks from a variety of setbacks. The real story behind the champions motivates us recreational athletes to overcome our setbacks and be the best we can be. Period. Excellent read. Don't delay read it today.

Dr. Afremow hit another homerun with The Champion's Comeback. His previous bestseller, The Champion's Mind, helped me tremendously in so many ways, and this book is the perfect complement. In one of my favorite chapters, Dr. Afremow walks you through numerous mental practices and exercises for a multitude of sports and specific situations athletes face. The stories are incredible. The Comeback is real. Only question is, how many times will you reread this book?

This book is very informative and inspiring. It doesn't promise to help you win every match or game because in the end it is you who ultimately decides if you want to become champion. There are a lot of stories with history's greatest comebacks. Very fine read and every athlete should have it in their collection.

Jim Afremow has once again written a stellar book. He provides specific tips for how to bounce back from set backs in life and sport. Each chapter gives a lesson the backs it up with anecdotes from the sports world. If you want to learn how to recover for the crap life can throw at you, take these lessons from the best.

Jim does a great job
