Insights From The Creative Path: Find Meaning, Explore Your Vision

Synopsis

Are you looking for more than just great looking pictures? Is the endless pursuit of gear and praise leaving you less than motivated to find your creative path as a visual artist? Do you even think of yourself as more than just a picture taker? This book is an exploration of passion and personal vision in my journey as a landscape photographer. It's also a manifesto of sorts to think beyond fear and doubt, and discover your voice. As a professional music producer for 10 years, and now a successful nature photographer for over a decade, I've experienced the highs and lows of pursuing a creative life. I've also learned that what matters is your story, your vision, and little else. This is not a technical book, but rather a guide to finding the inspiration to make personal images. Whether you've been traveling for a while or just getting started, the path of creativity starts in your heart and mind. The camera just goes along for the ride. Illustrated with photographs and personal notes about my experiences in the field making images.

Customer Reviews

I really enjoyed this book and got a lot out of it. Robert gives words and meaning to the visual language of photography.

I really enjoyed reading this book . It helped me clarify if I am on the right track, with my compositions and increase my awareness of what to look for.

Not the usual prescription for great photos, but rather some different thinking about a difficult subject. The author's success is quite evident and his advice makes good sense for beginners as well as those long in the field..

One of the best things out there. The Man is a genius that is very passionate about photography. But even more so about teaching and getting a person to understand their self and vision. Best buy of the year!!!

Mr. Rodriguez will, if listened to, open new vistas. An inspirational and educational book!

Good

A fantastic insightful book that has helped me to improve my photography.

Great read and typical great advice from Robert.
