## **Customer Reviews**

Grade 4-6. Both of these series entries are clearly organized, well-written explorations of Africa's ancient civilizations, and they also include the modern history of the regions being discussed. The writing is lively and thought-provoking. The pages are peppered with fact boxes that enhance the narrative and stories of the personalities involved. Pronunciation assistance is provided throughout. Most importantly, the author's passion for his subject shines through on every page. The format is enticing, if a little busy at times, and packed with clear, well-captioned, full-color photographs and illustrations. Time lines place the kingdoms into historical context. There are many books that cover ancient Egypt, but there is little that places this area into the context of being an African kingdom, and nothing that offers such a solid and thorough foundation in a little explored subject area for this grade level. *?Donna L. Scanlon, Lancaster County Library, PA* Copyright 1997 Reed Business Information, Inc.

I am a homeschooler who is constantly looking for books to teach about African History. This is the best reference I have found to date on Ancient to old kingdoms in Africa. This is part of a six part

series on the past kingdoms of Africa. It is geared for an upper elementary to middle school student. The author is from Kenya and I appreciated the time and justice the author gave to each part of Africa in the 6 total books. You will not be disappointed. I have purchased many books on African History for young people and this is the most thorough I have found. The books are in color and the book is arranged more like a textbook with inlays and little pop outs within the text. There is excellent art work throughout the book. I like this book because it covers less known kingdoms, and the information is in depth. I have found that many books on African History just repeat the very basic facts and offer no culture or richness, this book does. I highly recommend. I will be incorporating this series of books into our African studies curriculum.
