Panorama 4th Student Edition

absolutely ridiculous... do not buy. it says it has the access code with it but it does not.

easy to follow in order to learn spanish

Came as described! It had no idea I ordered a hardcover version until I received it. Thank you so much for saving me \$75 of buying a new one at my college bookstore!

don't buy this book! it does not come with everything you need even if the description says it does. if you do when you send it back keep the tracking as you will need to fight for the refund.

I was under the impression that I would be receiving a new, fresh, and viable access code and I got the book with the access code scratched off and unusable.

Buying used copies of this book is useless. If the online codes have been used once you cannot use them again. The book makes no sense without the online material. This book is single use only.

Book was not new, the code inside had already been used. It would have been fine for independent study, for my class I needed the code.

The header of the product says that it comes with the Supersite Code, but once you receive it, it lets you know that it is not. Very unfortunate and misleading.
