Dissent In America, Concise Edition
This concise collection of primary sources presents the story of US History as told by dissenters who, throughout the course of American history, have fought to gain rights they believed were denied to them or others, or who disagreed with the government or majority opinion. Each document is introduced by placing it in its historical context, and thought-provoking questions are provided to focus the student when s/he reads the text. Instructors are at liberty to choose the documents that best highlight themes they wish to emphasize.

Taking up Martin Luther King, Jr.'s definition of dissent-"the right to protest for right"-Temple University historian Young culls 400 years worth of texts that exercise that right with fire and flair. Anne Hutchinson, Henry David Thoreau, Martin Luther King Jr., Ani DiFranco and Cindy Sheehan all appear, alongside lesser-known figures like Native American Stung Serpent (writing in 1723) and Lucy Stone (who circulated her "Statement on Marriage" in 1855). Divided chronologically, the anthology collects essays, speeches, organizational statements, songs, posters, interviews, broadsides and texts in other media. Most of those voices come from the left of the political spectrum, but Father Coughlin, The Michigan Militia and others are also here. Susan B. Anthony advises earnest dissenters to "avow their sympathy with despised and persecuted ideas and their advocates, and bear the consequences." For readers with something on their minds, 400 years of precedent may be just what they need to stimulate some questions of their own. B&W illustrations.
Dissent is central to American history, writes historian, professor, terrorism expert, and novelist Young, and central, one might extrapolate, to the American spirit and democracy itself. Young originally constructed a comprehensive and scholarly two-volume collection of the writings, speeches, and manifestos of visionary and influential American dissenters. He now offers a concentrated version that is both more accessible and more dramatic in its chronological and inclusive coverage of a spectrum of resistance to injustice, from pre-“Revolutionary War petitions to protests against the Iraq War. Name a world-altering social movement, and you will find fiery expressions of its impetus, beliefs, demands, and hopes, from the birth of the nation to religious freedom, free speech, abolition, environmental concerns, and the battles to protect the rights of Native Americans, African Americans, workers, women, and gays. Along with official documents and cries from the hearts of ordinary citizens, Young includes protest music (Woody Guthrie, Ani DiFranco, Mos Def), and profound and eloquent writings by Ralph Waldo Emerson, Margaret Fuller, Frederick Douglass, Martin Luther King Jr., Mario Salvo, and Gloria Steinem. --Donna Seaman

For a basic understanding of how this country has fought against the forces of big money and political power from the very beginning, I haven’t found a better anthology than this one. You’ll be amazed at the things you didn’t know, or had forgotten, about American history.

A full anthology of protest writing. Fantastic for both learning on one’s own or when researching or using for academic query. It is great having such a selection in one book.

This is a fantastic, phenomenal collection of primary-source documents spanning all throughout American history. I highly recommend it for anyone interesting in brushing up on American history, as well as anyone genuinely interested in the various reasons, methodologies, and practices behind "dissent."
