Customer Reviews

In this case, you can judge a book by its cover. This book is nothing but a list of wrecks. Only a small fraction have specific location information. If you are a SCUBA diver looking for sights to dive, this is NOT the book. Very minimal information.... self-serving photos of the author's friends and low resolution B&W figures, instead of useful graphics like a simple MAP of where the wrecks are located. This is a second-rate history book.... NOT a resource for divers.Keep looking

Within days I was able to locate several wrecks recovering millions in gold and artifacts. But, seriously, a very good comprehensive listing of Florida related shipwrecks with succinct capsule summaries (basically as few sentences regarding each wreck). Some interesting written narrative. Good bibliography enabling additional research.

Cool book of wrecks but nooo information of locations at all I purchased for diving and wasUseless cool book tho
