Synopsis

An onsite adventure from Moj car, Almer a, Spain   on the Mediterranean Sea   brings up to date and fresh insights into what Andaluc a is today and how it got that way: history, culture, fiesta, music, food, drink, bull fighting, cathedrals, H-bombs, movie making, photography   and a brand new and original   Tale of the Alhambra    which portrays how the lions arrived at the Patio of the Lions in the Alhambra, Granada. Top picks for the four best Andaluc an cities are ranked and defended. No American planning to visit Spain in general or Andalusia in particular should leave home without their 'Suiter'; an indispensable guide to the Country and its people. Written in an easy style and packed with information, Bud has captured the spirit of the country and its relationship with the world often getting up close and personal, betraying an emotional memory of his early years in Puerto Rico.

This was an excellent book. I enjoyed the mix of history, as well as Bud's personal perspective and experience during his time in Spain. I also had the honor to meet Bud, and he took the time to sit down with me and personally share his experiences in Spain. I am excited to spend a summer in Spain living with my family and thank Bud for this book and his passion for Spain.
