American mystic Joseph S. Benner (1872-1938) was one of the most thoughtful and impactful contemplative voices to emerge from the metaphysical culture of the 20th century. His books, particularly *The Impersonal Life*, have inspired a wide range of New Thought authors, and continue to be widely read today. --This text refers to an alternate Paperback edition.

This book is the best bok I have read in my life. The reason is that it really orients yout on how to find your true Self and with It the real meaning of life. It not only helps you to find the core of your problems but the ways how to approach them to gain inner peace, guidance, hope and wisdom to be more assertive in your decisions. I really recommend this book to anyone who is looking for spiritual progress.

Loved it!!! It was like I was destined to read it and it was next in line on my spiritual journey. I am one who studies *A Course in Miracles* and Joel Goldsmith's *Infinite Way* and this is right in line with

both of these teachings. I have read this book 2 times already and I am going to read it again. I know it is true but living in the body on this planet is totally contrary to all of these teachings. They must be put into practice and I have to keep reminding myself of the beautiful truths they contain.

I've read that Elvis Presley carried this book with him everywhere . . . It is a great read and I think most people will find it an easy read as well. Interesting thought behind the concept of "I am."

I have read many many spiritual books and I consider this one by far one of the best. I could read it over and over again. It is so full of wisdom and truth, and yet it is written in a direct manner that makes you feel like you are hearing the voice of the Creator in the words. It is purely non-denominational and should have an appeal to all spiritual seekers. Amazing considering it was written in 1914. One of my spiritual teachers said when she found this book, she kept it on her nightstand by her bed for 40 years, until it was so dog-eared she could no longer read it. Thankfully is now selling reprints of this classic masterpiece.

THIS SMALL TREASURE IS ONE TO KEEP FOR DAILY READING INLINE, APPOINTMENTS, AND OTHER MOMENTS OF WAITING! I WORE OUT MY FIRST COPY FROM YEARS AGO, SINCE WAS WRITTEN IN 1941. REORDERED BECAUSE ACTUALLY, ONE'S OWN SOUL IS SPEAKING ON EVERY PAGE AND OUR RECEPTION RAISES AS WE AGE GRACEFULLY FROM OUR 20's DECADE BY DECADE!

It takes time to read this little book. I read it once, but I like to take a chapter over again and try to understand what God is saying. It has given me great peace and a wonderful feeling of a personal relationship with God. You must be prepared to read and relish each paragraph and try to get the meaning of God in all of our lives. I was brought up thinking God was some big man up in the clouds. Its hard to break away from what you have been taught, but this little book shows that each one of us are a part of God. He created us and breath His Spirit into each and everyone of of us. I have learned He is with us all the time and honestly it makes me more aware as to how I live my life. I feel He is my Dad and He is watching over me with love just as my earthly Dad did. I am sure each person who takes the time to absorb each paragraph in time, you will feel so protected and loved by God. The world needs this in these days of horrible things happening. We need God and we need to know He loves us!

This is a book that I will be reading over and over again. It came just when I needed it, to elevate and grow my spirit. I'm so thankful to have run across it, but then there are no such things as coincidences in my book. This is a beautifully written book

When reviewing - are we reviewing the quality of the product itself or the content? I'm not sure - but be advised I am reviewing the content. It's an e-book so really can't review the product. Clicked 'buy', update and voila, it was in my library. Really a no-brainer here. Not an easy read by any stretch. Be prepared to reread sentences over and over to understand the concept. Or maybe that was just me because I couldn't get past the audacity. We just don't think like this anymore. Quite frankly, I couldn't finish it as I couldn't wrap my head around the message. Clearly some are open-minded enough to accept the message (Dr. Dyer for one), others are able to read it from a neutral standpoint. I found it insulting. Guess that makes me a noob after all! I sincerely hope at least you can enjoy the message. Good Luck!
