The Art Of Mediation

Synopsis

This workbook is designed for basic mediation training. Authors Scott Hughes, Mark Bennett, and Michele Hermann take NITA's performance-based training for trial lawyers and adapt it to training for mediators. The authors have used these materials extensively in their mediation training classes at law schools and in programs open to the public. The Art of Mediation, Second Edition, sets the mediation process in context, provides basic definitions, contrasts mediation with other forms of dispute resolution, describes varieties of mediation, and lays out roles and functions of the mediators. The book contains forms that illustrate sample agreements to mediate and final mediation agreements, plus a section containing hypothetical situations for performance training.
