## Customer Reviews

I like this book a lot, the patterns are awesome. It is a bit hard to read on the kindle and the pages do not enlarge.

Loved this book for giving clear and complete instructions for the plant hangers, also good for holding miscellaneous storage containers. It's good if you already have some beginning experience with the knot tying because the instructions aren't very specific for a beginner, in that regard. Loved this book overall!!

I had this exact book years ago when mainframe was all the rage. The patterns are beautiful and

fun. If you get bored with mundane crafts as I do, you'll appreciate mainframe.

I made a planter using the half twist knots with the orange beads. Very proud of the out come...this book is a pure joy to have in anyone's collection.

I had this book along time ago and it got lost. I am so glad I found it on my kindle because I loved the hangers in it and the patterns were not hard to follow. The best thing is I have it on my kindle now so it will not disappear again. :)

Low resolution scan. Unreadable.

Love the designs

Very easy to understand. Great patterns, from very simple to probably medium experience level. This was a great "refresher course" for me.
