## **Customer Reviews**

Dr. Paul Pimsleur devoted his life to language teaching and testing and was one of the world's leading experts in applied linguistics. After years of experience and research, Dr. Pimsleur developed The Pimsleur Method based on two key principles: the Principle of Anticipation and a scientific principle of memory training that he called "Graduated Interval Recall." This Method

has been applied to the many levels and languages of the Pimsleur Programs.

Some of the wording and pronunciation used in the classes are at odds with my prior training, but it is an excellent method to learn not just the words, but the proper pronunciation of Spanish. Which is something that Americans really need.

I have been trying everything to learn spanish on my own and this is the only thing that has worked, I listen to the CDs on my commute to work, I finally feel like I'm learning! Love these and will be buying the next lessons when I'm done

This is the second Pimsleur conversational course we have purchased prior to taking a trip. The other was French. We have been very pleased with both and recommend them to persons wanting to pick up some language skills prior to visiting a country.

muy bien. Gracias.

Yes, excellent, conversational and practical

Best lesson ever. I just wished they had another section of cd that continued with another set of 15 or 20 lessons and so on , that would be affordable rather than buying the whole CD that worth more than \$250.Nevertheless, the best way to learn language. Thanks to Pimsleur.

Pimsleur is another great method for learning Spanish. However the second CD skips which will cause lost of an important introduction of the Spanish word 'de'. All other CD were good in package. Great price via .

I love Spanish language but my problem is I cannot speak fluently.Thanks '
