How To Deal With Manipulative People

Synopsis

Tired of people walking all over you? Wish that people would stop being able to manipulate you so easily? I was at one time, so I created this book so YOU can learn to take charge so that you can deal with manipulative people. Whether its your boss, your parents, or your coworker (who always seems to be the favored employee while you do all the work!) being manipulated by people just plain sucks. You're the one putting in the long hours. You're the one doing all the work but it seems like everyone is taking advantage of you and its unfair! If you're one of these people, this book will help you. In it you'll learn: 1. The telltale signs of a manipulative person 2. How to deal with manipulative mothers 3. How to deal with manipulative coworkers 4. How to deal with manipulative bosses 5. How to manipulate the manipulator! Don't worry--this isn't a guide on HOW to manipulate people! Need another reason to buy this book? Here's a great one: Children's Literacy is extremely important to me, so I donate 5% of the proceeds from all of my book sales to Reading Is Fundamental, the largest and most respected children's literacy program in America. Nobody has the right to use you, manipulate you, or take advantage of you. Choose to take a stand, and learn how to deal with manipulate people so you can take back your life today--Get this book and learn how starting now!

Best Sellers Rank: #3,989,497 in Books (See Top 100 in Books) #49 in Books > Teens > Social Issues > Physical & Emotional Abuse

Customer Reviews

What I like about this book is that it covers the many types of people in one's life who could be manipulative such as a parent, boss, co-worker, friend, spouse etc. It explains ways to take back your power and hopefully stop the person. The book explains how to avoid this in the future and so much more. This is a book to keep for reference in my opinion as sooner or later, there is always the

person who will show up and want to be manipulative, this book is great to read and follow the advice should this happen. Highly recommend this book if you are involved with someone trying to manipulate you.

Manipulation is something we feel uncomfortable discussing because it risks exposing our own weaknesses and also the intentions of a manipulator who might be someone we love. In that context this e-book by Sarah Goldberg makes you face uncomfortable truths headlong. The book starts with an example where a woman is forced into not only changing her original plan but also buy something which she did not need. We can identify with it, because we have definitely faced it at least once in our lives where we walk away promising ourselves to be stronger willed the next time. And the reader's interest is kept alive by a spattering of such identifiable examples throughout the book. This ebook is interesting right from the word go and I actually completed it without taking a break. More so because the book discusses different relationships from which an individual can get manipulated. By the time I had got through the chapters talking about potential sources of manipulation I was desperate for solutions. And there it was, written in a concise organized manner and you think why didn't I think of that before? As a self help book I would give it 5 stars!

We get to meet a lot of manipulative people not only in the workplace, but also in school, community, church, etc. Most of us do not make a move and just do what they want us to do just to avoid trouble. This book is about making a move and dealing with every manipulative person we meet. This is a must-read for those who are tired of putting all their efforts while others are taking advantage of your silence.

There are tons of people in the world who have manipulative qualities. It is upsetting to see people that are taking advantage and people who do not realize they are being manipulated. This book has great advice for how to avoid these situations/individuals.

Seriously? If you like books that are 36 pages long, barely skim the surface of a very deep issue and offer extremely little in suggestions then this is it. Keep this on your shelf as a reference? For what? How to write a crappy book and charge \$2.99? I've never asked for my \$\$ back for a book but I'm emailing to find out what their policy is.

Good read

is this pricing rigtt!?!? \$7,777.02 i think this needs to be looked into. I actually wnted to buy this.
