Dear Fellow Traveller Thank you for checking out the South Africa Handbook 2001. Footprint are an independent British publisher (based in Bath). We specialise in providing travellers with guidebooks that are second to none in terms of accuracy, recency and especially coverage. You will find that most of our guides are simply the most comprehensive available with in-depth information on history, culture and customs as well as practical travel information. If there are no reviews for this particular title we recommend you check out the reader reviews for the Peru and South American Handbooks which give a good flavour of how useful our guides are. You might like to know that we also publish East Africa and Namibia Handbooks and an extremely useful general guide to travelling: The Traveller's Handbook. Finally, whichever guidebook you choose, we would like to

wish you an exciting, illuminating and above all enjoyable trip. Best wishes Footprint --This text refers to an out of print or unavailable edition of this title.

After living in Africa for eleven years Sebastian went on to take a degree in African and Asian Geography at the London School of Oriental and African Studies. He has visited Africa 35 times and travelled in all the countries between Nairobi and Cape Town. --This text refers to an out of print or unavailable edition of this title.

we just came back from our south africa tour using the footprint handbook to zig zag more than 10 000 kilometres through the country. this book is a five star travel companion: very much up to date in sections like accommodation addresses, price categories, timetables - and the footprint kept us entertained as well. With little personality stories and well researched history background. the best thing for us: footprint calls it a handbook and not a guide book and that is what you need if you are self sufficient travellers like us in our vw kombi. look up the little sleepy karoo towns you are passing through on your way to major tourist destinations and even there you will find interesting details about the country. also well researched are the route descriptions if you are tending to go off the beaten track and for instance go off exploring some of the winding roads, that thomas baines designed more than 100 years ago along the garden route. if you use this book as a reference book while having your own ideas what to see and where to go, you won't get lost. instead you will get an idea what living in the rainbow nation is all about. one regret: a pity that the cool story about johnnie, the cave man, who explored big parts of the oudshoorn cango caves, got shortened in the new edition.

It is rare to find such a well written, comprehensive and detailed guide. The maps are excellent and cover more than just the essential. Information is as up to date as you can get it - this guide gets reprinted yearly. I also understand that from the time editing is finished it appears on the shelves within 3 months. The print is smallish and the paper is thin. However, the information is absolutely incredible - about 8 times more comprehensive than its nearest rival! From hiking trails to detail on less frequented places. This is deservedly the no. 1 selling book for South Africa - probably as timetables of trains, busses and Baz Bus is published and it makes trip planning really easy. It is also not written only for budget travellers - it is a book for everyone. Highly recommended.
