Candida Albicans: The Quiet Epidemic

Synopsis

Candida is a problem that affects millions of people in the United States. As many as 25 million Americans have this yeast overgrowth. Indigestion heartburn gas, bloating, chronic fatigue, yeast infections, food sensitivities, headaches, loss of sexual desire, or feeling and PMS are among the symptoms that may indicate the presence of a candida overgrowth. This book offers the most complete program for reduction of candida available today. A compilation of the latest information about Candidiasis and its treatment and a self-test to determine whether there is a candida overgrowth are included.
