This book will be a great resource to others facing the daunting realities of this horrible disease.

--Joe and Sue Paterno, Penn State, May 2006

Cliffâ™s battle with cancer allowed JoAnne to view life with a whole new perspective. Whether it was experimenting with the newest, cutting-edge medical treatments or utilizing alternative therapies such as acupuncture and Reiki, JoAnneâ™s goal was to find something that would not only extend Cliffâ™s life, but also to improve the quality of his days. The never-ending love and devotion between JoAnne and Cliff is evident from the first line, and will carry the reader through until the very last page. This story reminds us all of what can be done when the love and concern you feel for another is all encompassing.

Since I welcomed a dog into my home for the first time 11 years ago I have enjoyed reading books about other's relationships with their dogs. Among my favorites are "Colter" by Rick Bass, "A Rough Shooting Dog" by Charles Fergus and the more famous "My Dog Skip". I loved this book. "Cliff and I" will take a place among those other fantastic books on my shelves at home. This book is different

than those in that it has a narrower focus in the story of Cliff fighting cancer while Joanne aids in his battle. It is this battle that creates the story and the lessons contained in the narrative. Like those other books, in this book we learn that the dogs in our lives teach us humans more about ourselves than we ever knew. The author finds herself uplifted and forever changed by witnessing the force of life that flowed through her dog as he held onto and relished every moment and every breath he had on this earth. It is a great read that will leave the reader changed as well--walking away with a reminder of the very fragile and precious nature of life itself--both in the human and animal world.
