Customer Reviews

This is the 2010 paperback edition of Scarlet Imprint's "True Grimoire". It is a vitally important addition to the Goetic Mysteries, and shows by comparison and illustration where later editions of the Goetia and other Grimoires such as The Black Pullet, and Le Dragon Rouge got their material from, correcting signs, names and sigils of many of them for the first time in centuries. This edition is currently selling for about \$30, the hardback could cost you seven times that much if you can find one for sale. Scarlet Imprint are to be commended for making affordable paperback editions of their otherwise costly and limited editions! Students will find it very instructive to compare *this* edition of the Grimorium Verum with Joseph Peterson's Grimorium Verum

The penultimate modern translation, the first volume in Jake's 'Encyclopedia Goetia' which includes The two volume works Geosophia: The Argo of Magic and The Testament of Cyprian the Mage. If you want to dive deep into the grimoires - this is your in.

After reading this Grimoire and myself raised in a Christian upbringing, I found it enlightening. I was very happy with this Grimoire, the Book is very practical for the study of magic. One thing that I didn't necessarily dislike, but did not find useful at this time, was the relation to the Exu and Grimoire sigils. It was defanatlly necessary in my opinion to add this, on account of this Book being The True Grimoire. :see: ' Grimoire wiki 'I would recommend this Book to anyone, not just magicians or those seeking magical study. The True Grimoire is now among my most valued possessions.

Very astute analysis in my opinion. An alternative interpretation is always good on these subjects, seeing as how much has been lost to time.

This is Grimorium Verum revitalized and interpreted from both French and Italian mss by the trustworthy Jake Stratton-Kent. The author includes copious notes and background about this grimoire's history, along with comparisons and lineage information of other grimoires in the Solomonic tradition. Recommended.

this is an affordable version of the hardbound copy, and it is well done. The book is in new condition, and contains numerous illustrations throughout the book. The writing is clear and easy to understand.

I bought this book after listening to JSK talk about his most recent book on the runesoup podcast. I have been getting more and more into the practice of magic again but have been reticent to try conjuration. The podcast took it away that reticence but the old pdfs of the true grimoire felt a bit confused and hard to follow. Mr. Stratton-Kent aids this in his addition as well as providing a deep and rich context that invites anyone who may be on the fence about taking an attempt at this. I look forward to taking this for a test drive so to speak. I cannot recommend this enough. I look forward to buying a physical copy now reading the rest of the Encyclopedia Goetica as well.

Just finished reading this book, and I will be purchasing more from this author! So insightful!!
Thanks Jake!
