The holiday starts the moment you open the guide book The Guardian

This compact map is about half the size of a mans wallet. with a foldout map of the city it clearly show the main sights of the city, the subway system and main roads. Also included is a tourists guide to the popular attractions which is divided into the various sections of the city. So you can see whats nearby whatever part of St.Petersburg your in. The only drawback about this handy little map is that it is paper. So if it gets wet it will probably tear. Besides that its great and I plan on using it on my trip next month.

Russia is so confusing anyway, but this map of St. Petersburg helped us get around to the sites we needed. There is an abbreviated section for all the basic sites.

Three days in St. Petersburg and this book helped us to see all that we could see in short time. Glad we bought it.
