Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

This is a nice collection for the progressing student. As a teacher, there are many works in this volume that I have been able to use with my students. The play along CD is an added bonus,

especially once the student has had sufficient time to learn the piece to be performed. There are a few instances in the solo works where other editions should be used for comparison sake. A few rhythmical or ornamental changes need to be made, however this book still remains a very valuable part of my collection.

I ordered this for my nephew who is a freshman in college. He has been playing the trumpet for at least 6 years and continues to excel and be at the top of his class. And when he received this, his eyes lit up. Having said this, it is pretty difficult music. I have played in concert band and have played piano all my life and the accompaniment was very advanced. The description for the book says it's for late high-school to early college players, but I would surmise it is a bit more difficult than that. Otherwise, very pleased - no problems.

Item is as described, but I wish it had all movements for each piece.
