Customer Reviews

Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

I enjoyed the music in this book, but a lot of it was sight readable. I don't consider myself to be the greatest player in the world, but I bought the book in hopes of being able to work on a few pieces at a time. Upon opening the book, I found that I was able to sight read through almost every song. I bought this after reading a few reviews saying that it was challenging music, but if you are a good sight reader and want challenging music. This isn't for you.

This book has slightly more advanced arrangements of each movie's specific songbook. The

"Whole New World" and "Reflection" arrangements here are spectacular. The "Go the Distance" arrangement is quite similar to the one in the Hercules songbook, and I actually prefer the one in the Hercules songbook instead. I played these three songs and uploaded them to my youtube account (username timmyng531).

This book is amazing! When I first bought it, I had an unrealistic expectation for this product. I wanted a book that would grab my attention, easy to learn, not too difficult to sight read, and an enjoyable music that does not contain too much repetition. This book met all of my standards and more! I highly recommend this book to those who are between beginners and intermediate levels. Don't let the childish logo fool you for this book will bring enjoyable memories and fun, for both adults and kids!

This is NOT easy! Intermediate and above is more like it. We need to have access to the inside of books to make the determination of simplicity. Overall the music choices were very good.

I hate when songs end up sounding different when they are played on the piano. These arrangements sound really good on the piano, yet they are easy enough to sight read. The difficulty would be for someone who has been playing piano for a while.

I wish the songs were listed. I wouldn't have bought this book if I had known what the songs were. The arrangements are nice easy to sightread.

The songs sounds great. I guess the reason for a 4 start is the book is a little more difficult than expected. These songs are more for the advanced group of pianist.

This sheet music book is a great variety of Disney works. The person playing the music should have some knowledge and skill in playing the piano, though. It is a fun book.
