The fact that author says this is a list of the 101 coolest things to do in AUSTRALIA should've been a tip-off right from the start of what was to follow. Is essentially little more than someone's opinion of

"coolest" things to do in Ireland (or is it Australia?) with a SHORT paragraph about each. No references, no citations, no websites, NO MAP to provide geographical context , no dates on material...you get the idea. I've never written a review before, but am so incensed about this product felt compelled to warn others. DON'T WASTE YOUR MONEY!! Spend a little more and get a REAL travel guide from Fromm's or Rick Steve's - at least you know it'll be current and well researched. This one is WORTHLESS!

Please do not buy. Complete waste of money. It is basically 10 pages and looks like a pamphlet made in Word by my daughter. It is so unprofessional (there is even a typo in the introduction referring to Australia instead of Ireland). I would have returned it but my daughter marked one page. This is the worst travel book ever written. I can't believe that agreed to sell it.

This book has things to do, but it has few details and no pictures. If you want a list, then this is a good book for you. You will just have to have your computer next to you to google the items from the book. At that point though it might just be easier to be googling things to do rather than paying for this book.

The book lists the coolest things to see and do, but doesn't tell you where to find said things. For example,#7 in the book is to try night kayaking at Lough Hyne. I really needed to do my own research to find out where that was only to find out I wasn't going to be near Lough Hyne. I found the book to be a waste of money.

I love Ireland, but not this book. There are no pictures, no maps, nothing very captivating. Really not worth the money, and I think Google will provide better results.

I thought this was a book...i guess technically it is...but it is only slightly bigger than a pamphlet. Glad it wasn't the only thing I ordered for a gift.

This book isn't worth the money. There is no table of contents and no page numbers. There are no categories and it's impossible to find anything to plan a trip. Don't waste you money.

Disappointing, no photo's.
