## **Synopsis**

Addiction, The Lifestyle, The Recovery Star light, Star bright, I wish I may, I wish I might. Well, you know how the saying goes, and it was going to take a lot more than a wish upon a star to change my life. My mind was clouded from years of drug abuse, and my senses were dulled. I seemed to have absolutely no emotion left at all. Was I destined to live the rest of my life like this? I often prayed that I would be the next to die. I wondered why I had survived so long in the first place. I never thought that I would have made it past my twenties, and at this point I was nearing forty. What was my purpose? Would I ever find out? Would I ever make it to fifty? Did I even want to? My life had become so much more than a living nightmare. I could not believe that I had wasted so many years of my life chasing drugs, and falling into one bad relationship after another. Johnny was out of my life, but I just invited other men along for the ride. Now that my grandmother had passed away, I knew that my days were numbered before I had to move out of the back house. I would have to find a place of my own, and it was about time. I needed to get my shit together. What I really needed, was to find a new life. Was it too late for that? Was there any hope left for me? Any at all? Had I burned every bridge, and killed every single opportunity? Book Five of the Sweet Melissa Memoir Series takes you deeper into the self-destructive cycle of addiction. It leaves you wondering why someone with so much potential and family support can become addicted to drugs, and the lifestyle that goes with it. The series contains many TRIGGERS and may not be suitable for the newly recovered. The series may help family members understand how easily one can get caught up in the vicious cycle of addiction. To others it may provide a sort of entertainment. The author wants to point out that no matter how far a person falls, that there is always hope.

## **Customer Reviews**

Ive been reading her story from book one and i can relate to alot of what she been through. I myself am an addict who is now clean since 2011. This book tells you how fast yopr life can spiral out of control. But also makes me realize why i never want to go back to that type of life style. I cant wait for book 6

I read this installment in 2 days. I just can't believe it. I'm so hooked and I can't wait for book 6. Highly recommend reading this now before it becomes a movie or hit TV show.

I am so hooked on this series. It took me 2 days to finish this one. I can't wait for book 6 to come out. I highly recommend reading the whole series. Susan Segovia-Munoz tells her story in such a way that you feel like you are there. Awesome author!!

Likes it. Can't wait for book 6 ^\_~

Being a user of heavy duty drugs such as heroin for more than twenty years is unusual. Our author finally breaks free of Johnny when he goes to prison, but she has taken over selling the drugs that Johnny used to do. She also takes on the role of caregiver for an elderly man who is prescribed WAY more narcotics and other medications than any one person could use. Most of these and his pension check he lets her have. So she is making a LOT of money. She switches from using heroin to using meth and crack. She continues to fly high most the time. She goes thru a few relationships and then loses her caregiver role to the old man, buys her own home, continues to love the pit bull she has and finally, it all catches up with her and she is arrested again. It looks like she will be spending significant time inside.

Well She really did it. Now look what happen. She seems like she like to be high more than try to have a peaceful life. It not good now for her.

Very well written. Susan leaves nothing to the imagination in telling of the hell she endured all due to drug addiction.
