101 Bets You Will Always Win: Jaw-Dropping Illusions, Remarkable Riddles, Scintillating Science Stunts, And Cunning Conundrums That Will Astound And Amaze Everyone You Know

Synopsis

Everyone loves a winner. Imagine being able to challenge anyone with seemingly impossible bets, safe in the knowledge that you will always win. Imagine no more. Richard Wiseman is a psychologist who has traveled the globe in search of the world's greatest bets and in "101 Bets You Will Always Win" he shows you how to use science, logic and a healthy dose of trickery always to be on the winning side of every bet you make. Using coins, dice, matchsticks and ordinary objects, you'll discover, among many other things, - how to balance a coin on the edge of a dollar bill - pick a cup up with a balloon - balance two forks and a matchstick on your fingertip - separate two glasses without touching them In explaining the bets, Wiseman also explains the science behind them making what at first seems mystifying as natural as the laws of gravity. Let YouTube sensation Richard Wiseman turn you into one of those smart people who can say "I'll bet I can..." and know that you'll never lose.

I have had more fun using this with the 3rd and 4th Graders I tutor.

My 9 year old loves this book. I love it because it actually means he is enjoying reading. It's also fun to watch him challenge his big brother!

This is also a gift...great book!

Fun, fast reading. Good for party conversation. Some might be useful for entertaining kids during the holidays.

Browsed at an independent bookstore. This is an almost impossible book to review without spoilers -- many of the bets are very clever but if I describe them, there would be no reason to buy the book. In any event, this would make a very good book for the bedside or potty side of a guest room. I had reached my budget for book buying, but have this amusing collection on my to buy later list. In the meantime, the author has put a large collection of similar bets on YouTube: search with his name or Quirkology. Wiseman has been publishing these sorts of odd and amusing facts for over 20 years. Robert C. Ross October 2016
