A very nice book. My mother - born in 1922 - cooked often with her (now) antique pressure cooker, and the food was always amazing. The new pressure cookers are so versatile, and have features of which she could never have imagined... like digital settings which means you just toss in ingredients, program them for your meal, and the cooker does the rest. I am just blown away by the myriad recipes in this book. It is a valuable compendium of pressure cooker knowledge. Cooking tools like crockpots and pressure cookers almost force us to cook healthy meals, from scratch. They are wonderful for switching your family away from processed foods to healthy foods. They are so EASY to use, and preparation is a snap! Even if you have no real cooking experience, a pressure cooker can have you turning out amazing meals on day one! I highly recommend this amazing book. I am so excited to now be able to prepare not only mouth watering meals, but so many of the dips and sauces my family loves.

I put this on my kindle. I really like the book. I have it with me where ever I go. Nice recipes in it. Easy and fast with the pressure cooker. I have tried some and they are really good. The only thing I can't write good on the pages like I do my cookbooks.

I have been purchasing author Emma Katie's recipe books for more than a year and always find them to be treasures for my kitchen. As the weather cools, we're pulling out our pressure cooker once again and I was delighted to see this collected of 500 glorious recipes that will easily take us through quite a few Winter days. This is a very well-organized collection with soups, appetizers, breakfast, main courses, etc. So far, we've cooked the banana nut bread and one of the beef stew recipes. I'm trying to pick out one of the yummy dessert recipes to try next. All of these are quite well-explained and I've never found confusion with any directions. highly recommended.

This cookbook has recipes I would like to make. These recipes are easy to understand and I have most ingredients in my home

I've been cooking food and when I say food, I mean rice, beans and vegetables alone in a pressure cooker for ages now and I absolutely love using it. It is clearly simpler compared to conventional methods of cooking and saves a lot of time as well. I was kinda sorta bored of my existing pressure cooker so I got myself this really futuristic looking (the ones with uber cool features) during the Black Friday sale for a pretty cheap price. Anyway, most recipes on the internet don't really encourage the usage of pressure cookers and having already used Emma Katie's recipes before, I got myself a copy of this cookbook. The recipes were pretty simple to follow and I'm super impressed by her ability to use pressure cookers to cook such a wide range of food. The best part about her recipes is that most of the times, I find the ingredients just sitting in my kitchen. This is clearly turning out to be the perfect companion for my uber cool pressure cooker.
