# Southern Rocky Mountain National Park & Indian Peaks Wilderness Trail Map, 4th Edition

## Synopsis

Waterproof & Tear Tough. Two detailed large scale 1:40,000 scale topographic maps cover the alpine terrain northwest of Denver & Boulder, with extensive trail descriptions, trail ratings, newly named peaks, shaded relief, backcountry info & full UTM grid for use with GPS. Noteworthy points mapped include Longs Pk, McHenry's Pk, Flattop Mtn, Bear Lake, Estes Park, Moraine Park, Glacier Basin, Arapaho Glacier, Jasper Lake, Nederland, Rollinsville, Tolland, Wild Basin, Rollins Pass, Brainard Lake, St Vrain Glaciers, and much more. Please note this map covers about 45% of RMNP: the south eastern portion, the most popular part. 5th Edition has brand new shaded relief that looks great, and every switchback is mapped in eye pleasing clarity.

its a map

Very good map....very detailed a must have!

Very nice map, should work perfectly for many backpacking trips to come.

Use this all the time.Thanks!

Whereas the USGS-based topo maps split just short of the continental divide, this map has both sides of the divide one one page - no more flipping the map back and forth! Also, he's not afraid to draw outside the map boundaries to capture the roads you'll be taking to the trailhead. Trail descriptions at the borders of the map are helpful in planning what hike to take. The extensive use of color as well as line type allows a lot of information to be packed into a small area.

i like these sky terrain trail maps. But this one is missing The West side of Rocky mountain national park. the map begins over 3 mi. into the park. missing all the trail heads, and dose not even have the Colorado river or grand lake. It doesn't cover enough on the west side. If you staying on the East side of the park then the map has you covered.
