# Troubleshooting For Jewelers: Common Problems, Why They Happen And How To Fix Them

## Synopsis

This comprehensive resource is a must-have for all jewelers. It covers hundreds of mistakes, accidents, roadblocks and disasters that jewelers, especially beginner and intermediate, may encounter. Laid out in an instinctive problem-to-solution order and exhaustively illustrated, it is designed for quick reference and ease of use. Troubleshooting for Jewelers opens with 150 diagnostic charts that act as a first point of reference to identify the most common problems. The principal task is to recognize where the jeweler is going wrong, so the book provides several options for possible causes alongside suggested remedies. These are organized by metalwork technique. Other helpful features include: Color-coded tabs for easy navigation Descriptions of how a problem looks and feels Potential causes are listed for each problem Beautiful finished pieces are shown to demonstrate what can be achieved Key stages of the technique are demonstrated Images of the faults to aid easy diagnosis Photographs demonstrate the best ways to remedy the issue at hand. The book's five technique chapters contain two types of content, each with detailed text and dozens of photographs. Best Practices introduces topics that help to lay the foundations for problem-free skills and to prevent future problems; and Fix-Its describe faults and mistakes, their causes, and provide specific instructions to make repairs. Troubleshooting for Jewelers closes with indispensable measurements and conversion tables, health and safety procedures, and a glossary. This is a practical reference that all jewelry makers will use at one time or another. It is an essential purchase, especially for trade and art schools and libraries.

## Customer Reviews

Frieda Munro is a tutor, technician and designer of jewelry, based in London. She lectures at Morley College and is a technician at Central St Martin's, advising students on the best techniques and machinery to use in their designs. She also runs her own studio. Her work can be seen at [www.friedamunro.com](http://www.friedamunro.com)

Great Book, lots of easy to find answers. Originally borrowed this from the library for my jewelry making class but realized I really wanted my own copy. Love it!

What a fantastic book. I've been looking for a reference book like this since I graduated. Information is clearly presented and best practices are spelled out concisely. One of the best purchases I've ever made for my studio. Highly recommended to anyone with even a passing interest in jewelry work.

Very helpful and well written.

Very useful insights into a variety of fabrication issues.
