Customer Reviews

Unfortunately it's the only way to present as detailed a map in this way, but book-form street guides are just plain horrible any way you dice them. You go off one map and have to start flipping to the next page halfway through the book, then back to make sure you're lining up... heaven forbid you are looking for something that straddles two pages! In this particular issue I noticed there were some page numbering problem with roads that are on the borders of any given page, but this was infrequent and easy to figure out.
